Experience

04/2022 - now – Cowper Care – Gascoigne nursing home

HealthCare Assistant

Treat residents as individuals and respect their preferences and choices as far as possible.

Help residents to achieve independence where possible.

Daily care of residents in the nursing home. It helps them perform basic tasks, including washing, dressing, serving meals and helping to feed patients.

It also monitors their conditions and updating the nurses on the residents' progress.

Following the guidelines of the HSE during the Coronavirus event using PPE and other procedures washing hands, control and infection controls.

07/2021 - 03/2022 – Ann's Home

Home Care Assistant

Daily care of clients in their own home. It helps them perform basic tasks, including washing, dressing, serving meals and helping to feed patients.

It also monitors their conditions and regular reporting to the supervisor or manager.

11/2019 – 07/2021 – FirstCare – Beneavin House

HealthCare Assistant

Treat residents as individuals and respect their preferences and choices as far as possible.

Help residents to achieve independence where possible.

Daily care of residents in the nursing home. It helps them perform basic tasks, including washing, dressing, serving meals and helping to feed patients.

It also monitors their conditions throughout the day such as by taking temperatures and weight, checking skins. I maintain regular contact with nurses and responsible for updating them on the residents' progress.

Following the guidelines of the HSE during the Coronavirus event using PPE such as:

- Social distancing.
- Direct contact with body fluids.
- Present in the same room for more than 15 minutes.
- Residents with total isolation for suspected cases (Full PPE).

2019-2019 - Caremark

Home Care Assistant

Performing basic tasks, including washing, dressing, and eating meals. It also monitors their condition throughout the visit. I maintain regular contact with supervisors and is responsible for updating them on the patient progress.
